

## CFCM Leadership Spotlight: Mary Daymont

Mary Daymont, MSN, RN, CCM, FAAN is a strong case management leader with exceptional expertise and experience linking case management outcomes to revenue outcomes. Her keen focus on mission and margins (ensuring high outcomes are achieved) makes her a coveted leader in hospital systems. Her previous work includes reducing DRG excess days leveraging embedded care pathways, with treatment plans and exit strategies developed as soon as patients are admitted. She was instrumental in transforming the end-to-end Revenue Cycle at her previous employer, Children's National Medical Center, resulting in a 66% net patient revenue improvement!

With a background in Public Health, Mary has implemented universal Social Determinants of Health across enterprises at all points of entry that immediately linked patients to resources. She continues this work with passion and vigor in working towards achieving health equity. Mary places high importance on transformative leadership, building diverse teams that are engaged, resilient and agile. This has led her to have high retention rates and a team that truly values their work. She translates her incredible leadership skills as an educator for groups and leaders, making her an often sought-after national speaker.
